

APPLICATION PROCESS

1. **Complete** initial energy assessment with CEA.
2. **Renovate** home.
3. **Complete** final energy assessment with CEA.
4. **Complete application package**
Fill and sign application form. Attach required documentation.
5. **Drop-off, mail or e-mail** package to Energy Solutions Centre (contact info below).
6. **Receive** cheque within eight weeks.

| REBATE | CRITERIA* | AMOUNT* |
|---|--|-------------------------------------|
| Energy Assessment | Initial energy assessment | \$250 |
| | Final energy assessment | \$100 |
| Insulation | Basic - increase by R-10 or greater (\$0.50/sf) | \$2,000 max |
| | High performance - increase by R-20 or greater (\$2.50/sf) | \$10,000 max |
| HRV | HRV performs at SRE ≥ 64% @ -25°C | \$500 |
| Windows & doors | ENERGY STAR®-qualified for Zone 3 | \$100 per unit up to \$1,000 |
| Materials & costs worksheet | Materials and costs worksheet | \$25 |
| REQUIRED DOCUMENTATION | | |
| <p>Itemized receipts/invoices for assessments and/or windows with zero balance owing. CEA upgrade report confirming insulation and air sealing renovations. CEA upgrade report confirming installation of HRV and/or windows. ENERGY STAR documentation for windows. Material & costs report sheet.</p> | | |
| * See Terms & Conditions for detailed criteria requirements and rebate calculations. | | |

TERMS AND CONDITIONS

DEFINITIONS:

CEA – Certified Energy Advisor

ESC – Energy Solutions Centre

HRV – Heat Recovery Ventilator

NRCAN – Natural Resources Canada

ELIGIBILITY: Products, projects and services must be installed in Yukon. Receipts and invoices must be dated within one year of rebate package submission to ESC. Appliances and products must be new. Second-hand appliances and products are not eligible for the rebate.

Energy assessments must be performed by an NRCAN-certified CEA. Applicants renovating existing homes are eligible for an initial and a follow-up energy assessment rebates. An applicant may qualify for the insulation rebate if an initial energy assessment was not complete pending consultation with an ESC Senior Energy Advisor. The Yukon government encourages communities outside of Whitehorse to participate in the Good Energy program by offering a reimbursement to CEAs for travel costs to communities. To qualify, CEAs must contact the Energy Solutions Centre and make arrangements prior to travelling to Yukon communities.

The **insulation** rebate is calculated based on the exterior surface area of the insulated component(s) and whether the renovation was a basic or a high performance upgrade. Components must be part of the thermal enclosure and have an exterior surface area. Eligible components include exterior-facing walls, ceiling, slabs and floor systems, basement & crawlspaces walls and rim joists. The addition of R-10 to R-19 to a component qualifies as a basic upgrade. The addition of R-20 or greater to a component qualifies as a high performance upgrade. In the case where an addition is made to an existing home, the applicant may apply for the insulation upgrade if insulation levels surpass local code requirement by the basic or high performance insulation upgrade values in the added exterior components. Twenty percent or more of a component's exterior surface area must be insulated in order to qualify for the insulation rebate.

HRVs must be **HVI-certified** and meet or exceed a sensible recovery efficiency of 64% at an outside winter design temperature of -25°C at principal flow rates. Following a final energy assessment, a CEA will provide an upgrade report that confirms HRV installation, balancing and technical specifications.

Applicant must provide **ENERGY STAR® Zone 3** documentation from vendor/contractor for each **window & door** installed (10 maximum). If claiming windows and/or doors purchased by the contractor, the applicant must provide an itemized receipt/invoice issued to the applicant from the contractor or a signed summary sheet by the contractor or supplier attributing receipts/invoices in question to the applicant. Following a final energy assessment, a CEA will provide an upgrade report that confirms window installation and technical specifications. **Windows and doors must be for residential use only.**

A **Materials & costs worksheet** must be completed detailing material, labour and/or equipment rental costs associated with the renovation to qualify for this rebate. Cost data will be used to evaluate program effectiveness and identify cost- and energy-optimal renovation pathways for Yukoners.

RECEIPTS AND INVOICES: Receipts and invoices must be legible, itemized and include: purchase date, purchaser name, retailer/supplier name, brands and model numbers of items purchased, description and cost. Names on required documentation must match the applicant's name (and where applicable, the co-applicant's name) on this form. **Each and all invoices must have a zero balance owing or be noted as "paid in full" and initialed by the supplier.**

LIMITS TO PROGRAM: The Good Energy program is renewed annually pending fiscal year budget allocation. Rebate offers are subject to program funding and revision and may change or end at any time. In no event will a rebate amount exceed the product, project or service value.

SUBMISSION AND PAYMENT: ESC is not responsible for lost, late, incomplete or ineligible submissions. Please allow up to eight weeks for payment. Payment may be direct deposit if you have been employed or under contract with Yukon government.

QUALIFYING PRODUCTS: ESC relies on third-party standards to identify and validate energy efficient products, projects and services. ESC does not endorse any particular manufacturer, supplier, contractor or installer in promoting these third-party standards.

ENERGY INFORMATION RELEASE: ESC adheres to *Access to Information and Protection of Privacy Act* and *Archives Act*. Personal information on this form is collected under the authority of section 29(c) of the *Access to Information and Protection of Privacy Act* for the purpose of determining issuance of an energy rebate. The applicant acknowledges that ESC keeps program information about services provided and the applicant's resulting energy savings as confidential, but will use data in aggregate in reports and other documents. Applicants may be contacted by phone or e-mail to participate in a voluntary questionnaire regarding program impact and opportunities for program improvement.

DISCLAIMER / NO LIABILITY: The applicant understands that ESC's role is to incentivize the purchase of energy efficient products, projects and services. ESC is not responsible for product installation, the quality of work or service by a contractor, the completion of projects or the quality of products purchased. ESC does not guarantee energy saving results by approving an application. ESC is not responsible for retailer claims about the Good Energy program, program rebates and product eligibility.
