TERMS AND CONDITIONS

DEFINITIONS:

CEA – Certified Energy Advisor
ESC – Energy Solutions Centre
HRV – Heat Recovery Ventilator
NRCan – Natural Resources Canada

ELIGIBILITY: New homes must be build in Yukon and achieve a 50% improvement in annual energy consumption over a NBC 2015 code home, excluding electrical base-loads and renewable energy. An occupancy permit in the applicant's name issued by the City of Whitehorse or a territorial inspector is required to be eligible for this rebate. The date the occupancy permit was issued must be within 1 year of the rebate application date.

Energy assessments must be performed by an [NRCan-certified CEA](#). Base loads and renewable energy systems must be excluded from new home modeling. The Yukon government encourages communities outside of Whitehorse to participate in the Good Energy program by offering a reimbursement to CEAs for travel costs to communities. To qualify, CEAs must contact the Energy Solutions Centre and make arrangements prior to travelling to Yukon communities.

Super-insulated new homes: Single detached (with or without a living suite), duplex and row housing are eligible for this rebate. Garden suites, small homes and modular and mobile homes are also eligible for the new home rebate. Other types of multi-unit builds may be eligible but require confirmation by the program manager and an ESC Senior Energy Advisor. A super-insulated new home is eligible for this rebate once an Occupancy Permit (in applicant's name) is issued by the City of Whitehorse or territorial inspectors. Applicants must submit a CEA qualification certificate stating that the home has achieved the energy efficiency standard of this program. This standard requires a 50% improvement in annual energy consumption over a NBC 2015 code home, excluding electrical base-loads and renewable energy.

RECEIPTS AND INVOICES: Receipts and invoices must be legible, itemized and include: purchase date, purchaser name, retailer/supplier name, brands and model numbers of items purchased, description and cost. Names on required documentation must match the applicant's name (and where applicable, the co-applicant's name) on this form. Payment will be made to the individuals or business identified on the occupancy permit supplied.

LIMITS TO PROGRAM: The Good Energy program is renewed annually pending fiscal year budget allocation. **This program is effective from April 1, 2018 to March 31, 2019.** Rebate offers are subject to program funding and revision and may change or end at any time. In no event will a rebate amount exceed the product, project or service value.

SUBMISSION AND PAYMENT: ESC is not responsible for lost, late, incomplete or ineligible submissions. Please allow up to twelve weeks for payment. Payment may be direct deposit if you have been employed or under contract with Yukon government.

QUALIFYING PRODUCTS: ESC relies on third-party standards to identify and validate energy efficient products, projects and services. ESC does not endorse any particular manufacturer, supplier, contractor or installer in promoting these third-party standards.

ENERGY INFORMATION RELEASE: ESC adheres to *Access to Information and Protection of Privacy Act* and *Archives Act*. Personal information on this form is collected under the authority of section 29(c) of the *Access to Information and Protection of Privacy Act* for the purpose of determining issuance of an energy rebate. The applicant acknowledges that ESC keeps program information about services provided and the applicant's resulting energy savings as confidential, but will use data in aggregate in reports and other documents. Applicants may be contacted by phone, mail or e-mail to confirm personal information, and/or to participate in a voluntary questionnaire regarding program impact and opportunities for program improvement.

DISCLAIMER / NO LIABILITY: The applicant understands that ESC's role is to incentivize the purchase of energy efficient products, projects and services. ESC is not responsible for product installation, the quality of work or service by a contractor, the completion of projects or the quality of products purchased. ESC does not guarantee energy saving results by approving an application. ESC is not responsible for retailer claims about the Good Energy program, program rebates and product eligibility.
